

Animo™

Animo is a source of rich behavioral information, revealing new perspectives on what makes each dog unique, helping ensure their lifelong wellbeing.

Set daily activity or calorie burn goals to ensure a healthy lifestyle

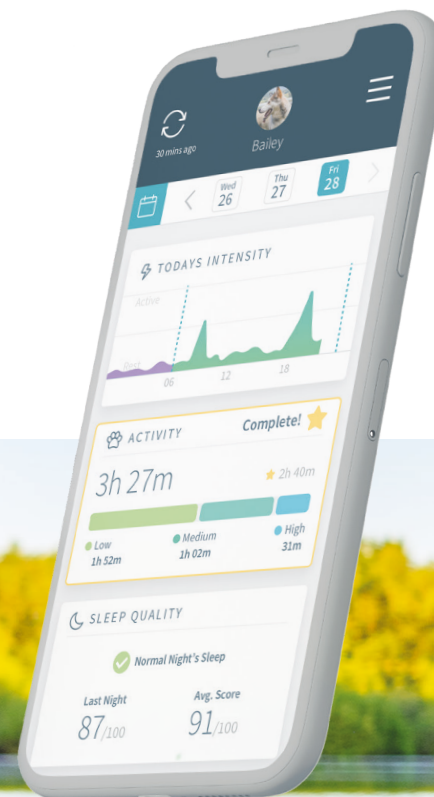

Sends notifications when there are significant changes in barking, scratching or shaking

Data is stored over time in easy-to-read graphs giving the owner a better understanding of their dog's behavior traits

Changes in sleep quality could be a sign of physical discomfort or an environmental factor that's causing disturbance at night

Award-winning smart pet products

No. 1 microchip pet product **specialist**

More than **1.5 million** products sold in 35 countries **worldwide**

Highly recommended by vets

The SureFeed Microchip Pet Feeder Connect enables owners to monitor how often and how much their pet eats. This can help identify changes in their feeding behavior, which could be a sign of illness or distress.

Accurate portioning - Set the food type and quantity of each serving using the Sure Petcare app and accurately weigh out using the LED guides

Insights - Monitor how much, how often and when a pet eats. Notice changes over time which may indicate changes in a pet's health

Feeding updates - Check when a pet was last fed and how much food is left in their bowl

Connecting pets and owners with app-controlled products

Connected products link to Hub (sold separately)

Hub connects to your home router to communicate with the Sure Petcare app

Sure Petcare connected doors are app-controlled, enabling owners to monitor their pet's comings and goings, receive notifications when they enter or leave the house and lock the door remotely from anywhere.

Peace of mind - Receive notifications when a pet enters or leaves the house

Lock and unlock - Remotely control the pet door anytime, anywhere from the Sure Petcare app

Insights - Monitor a pet's activities and notice changes in behavior

Create a curfew - Set a schedule for when a pet is allowed outside
